S.S hinges

Features & Specifications

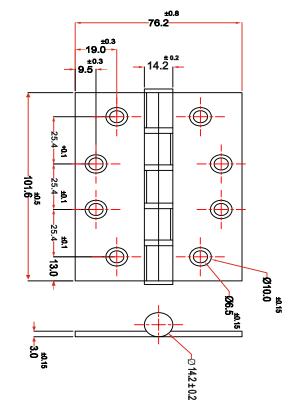

Size : 102mm X 76mm X 3mm

Material: Stainless Steel 304 Grade

Finish : Satin Stainless Steel

S.S. Ball Bearing hinge manufactured with two ball bearings for smooth an silent operation. Non removable flat pin provides extra security.

S.S tower flush bolt

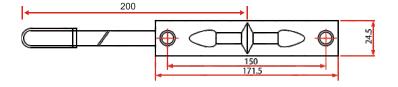

Features & Specifications

Size : 200 mm X 24.5mm

Material : Stainless Steel 304 Grade

Finish : Satin Stainless Steel

These are generally used to minimise the bacteria formation at inner side of door.

Door Stopper

Features

This element is a door stopper that features a durable stainless steel construction. It has got a special protection, so doors will not become damaged. This door stopper has got openings for mounting screws. It is designed to use on the floor.

Dead lock

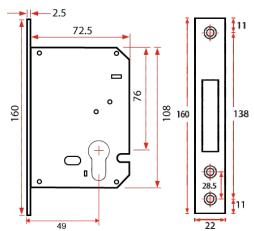

Features & Specifications

Lock case size: 160 mm (L) X 75 mm (Back Set) Powder Coated C.R. Steel

Lock Section : 52 mm X 10 mm Brass

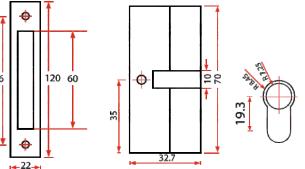

: 70 mm Brass (Both side key & one side key / one side Thumb turn) Cylinder

These Dead Locks come with standard sized cylinder for smooth operation. These are suitable for wooden as well as metal doors.

Mortise lock

Features & Specifications

240 mm (L) X 75 mm (Back Set) Powder Coated C.R. Steel **Dimensions**

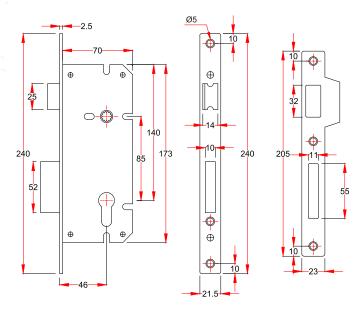

: 52 mm X 10 mm Brass **Lock Section**

: 70 mm Brass (Both side key & one side key / one side Thumb turn) Cylinder

: S.S 304 Mortise Rose Handle Handle

These Dead Locks come with standard sized cylinder for smooth operation. These are suitable for wooden as well as metal doors.

Hydraulic door closer

Features & Specifications

Size : Lenth 215 mm, Height 52 mm, Depth 47 mm

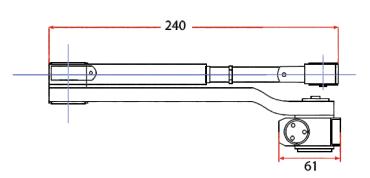

Material : Precision Engineered Aluminium Alloy Die-cast Body

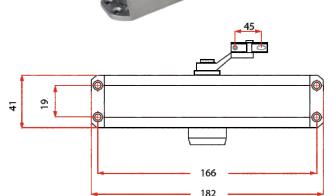

→ Suitable for Max. Door Weight up to 80kg

→ Working Temperature - 30° C to 50° C

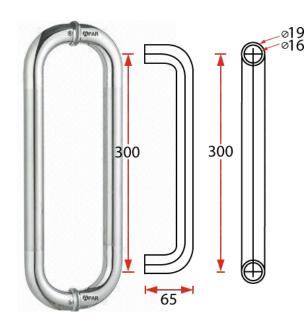

Maximum Door Opening 180°

These are suitable for single leaf door. These are universal no left/right selection. Can be used in window and metal doors.

S.S. door handle

Features & Specifications

Size : Dia 19mm x 150mm Dia 19mm x 250mm

Dia 19mm x 200mm Dia 19mm x 300mm

- V-type grooves running the full length of the blade to increase strength
- Low to medium velocity and pressure applications

Isolator accessories

Pass box accessories

S.S Flush Handle

Features & Specifications

Size: 120x41x2 mm

Material: Stainless Steel 304 Grade

Finish: Satin Stainless Steel

S.S. "C" Handle

Features & Specifications

Size: Ø 10 x 4" & 6"

Material: Stainless Steel 304Grade Finish: Satin Stainless Steel

These handles can be used specially for Cabinets & Pass Boxes.

Features & Specifications

Size: 75x50x2.5 mm

Material: Stainless Steel 304 Grade

Finish: Satin Stainless Steel

S.S Pull Handle

Features & Specifications

Size:130x22x2 mm

Material: Stainless Steel 304 Grade

Finish: Satin Stainless Steel

These handles can be used specially for Windows. These handles are manufactured for generally use.

Single piece can be fitted through screws.

Magnetic Catchers

Features & Specifications

Material: PVC & M.S

Color: White

Finish: Color Coated

Mounting Type: Door Mount

S.S Knob (Push-Pull Knob)

Features & Specifications

Material: S.S 202 Firish: S.S Satin Head Shape: Round Surface Finished: Polished

Restriction Stay Arm

Features & Specifications

Material: Stainless Steel 304 Grade

Finish:Anodized Silver

Usage: All Types of Windows

Restriction stays are MAINTENANCE FREE

Factory set friction level provides friction consistency and

no on-site adjustment requires.

Restriction stays will hold in position at any opening angle subject

to unusual wind force.

Features & Specifications

Lock case size: 138 mm (L) X 81 mm (Back Set) Powder

Coated C.R. Steel Lock Section 36 x 10 mm Key Hole Distance: 55mm

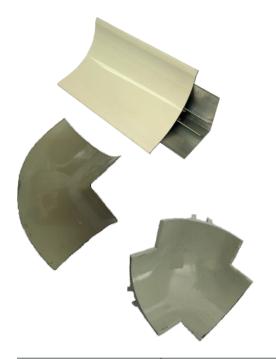

Cylinder: 70 mm Brass (Both side key & one side key /

one side Thumb turn)

These Dead Locks come with standard sized cylinderfor smooth operation. These are suitable for

wooden as well as metal doors.
